To whom it may concern:

Pilots N Paws is a national 501c3 organization who provides transportation by small plane volunteer pilots who are willing to assist rescue organizations in saving the lives of abandoned shelter pets.

Last Chance Animal Rescue is a phenomenal rescue organization who literally saves thousands of animals from kill shelters in states where the need is great. Pilots N Paws is honored to have worked side by side with them for the past four years to help them accomplish their mission. They not only provide veterinary care and housing for all animals accepted into their program, they heal both the physical and emotional trauma most of these animals face, ultimately find the loving home these pets so desperately need.

Their work is to be commended and their founder, Whitney Knowlton, has dedicated her life to insuring that as many animals as possible escape euthanasia. They also work diligently to educate the rural areas they accept animals from in order to create positive change.

We are grateful to Last Chance Animal Rescue for their passion and commitment. Pilots N Paws looks forward to continuing our relationship with this reputable organization.

Sincerely,

Deborah Boies
Co-Founder/President
